

## Computerized Measuring Doesn't Get Any Better

### Part No. 788541

More and more customers and insurance companies are requiring the use of computerized measuring as part of the repair process. And Chief's Velocity® is far and away the most sophisticated, yet simple to learn and operate system available in the industry today. Velocity provides fast and easy setup with full-color, one-page reports on the exact condition of the vehicle's frame before, during and after repairs have been made for indisputable evidence of damage severity and repair quality.

State-of-the-art laser scanner provides more exact measurements for pinpoint accuracy every time.

Highly detailed full-color inspection reports provide documented proof of the extent of damage before repairs . . . and the quality of your work after repairs.

Targets and attachments included and organized for convenient and fast set-up.

Optional upper body bar allows you to measure the roof, trunk or even two strut towers at once. Plus the vertical surface attachment enables comparative vertical measurements on upper body openings, like doors and windows.

Item	Description
Steel Cabinet Workstation	<p>Powder-coated baked finish with chemical-resistant ABS molded top</p> <p>All welded frame structure</p> <p>Two (2) rotating and two (2) fixed casters for easy mobility</p> <p>Complete 110 volt or 220 volt system</p>
Computer	<p>Windows XP Professional Edition</p> <p>Genuine Intel Core 2 Duo Processor</p> <p>80 gig hard drive</p> <p>512 MB memory</p> <p>Integrated Intel extreme graphics</p> <p>Integrated 6 channel audio</p> <p>Integrated network capabilities</p> <p>DVD player</p> <p>Windows keyboard</p> <p>Optical mouse</p> <p>LCD Color monitor</p>
Software	<p>Chief measuring software can be navigated quickly and easily</p> <p>On-screen photos of attachments and where they should be located</p> <p>One-touch movements</p> <p>X-measurements can be made with a click of the mouse</p> <p>Comparative SAI and caster measurements</p> <p>The system can be set-up to calculate for removed components</p> <p>Three separate and easy-to-read color reports to show measurements before, during and after repairs are made</p> <p>Your company logo can be incorporated into document design</p> <p>Includes interactive help and tutorial</p>
Printer	HP color printer
Body Scanner with Tray	<p>Small 6"W X 6"H X 23"L design reduces target blockage</p> <p>2 lasers</p> <p>2 rotating mirrors</p>
Targets	<p>Narrow targets with beveled edges to provide large scannable area</p> <p>Protective end caps act as shock resistors to help prevent damage</p>
Bolt Attachments/Clips	<p>Magnetic bolt attachments ranging in size from 10mm to 24mm</p> <p>Threaded bolt attachments ranging in size from 10mm to 32mm</p> <p>Metal clip attachments ranging in size from 10mm to 35mm</p>
Hole Attachments/Clips	Magnetic hole attachments ranging in size from 10mm to 25mm
Literature	<p>Users manual, parts manual, basic training manual, user manual(s) for computer, printer and Microsoft Windows</p> <p>Available on CD</p>

## OPTIONAL ACCESSORIES

<b>Alignment System</b>	<b>Contact Chief</b>
<b>Magnetic Bolt Half Set</b>	<b>Part No. 780200</b>
<b>Aluminum Snap-In Set</b>	<b>Part No. 799548</b>
<b>VIN Scanner</b>	<b>Part No. 799225</b>
<b>Scanner Tri-Pod/Quick Release</b>	<b>Part No. 788248</b>
<b>Upper Body Bar</b>	<b>Part No. 788178B</b>

## OPTIONAL ACCESSORIES

<b>Target Extensions</b>	<b>Part No. 798440</b>
<b>Vertical Scale Assembly</b>	<b>Part No. 797787</b>
<b>Target Weight Assembly</b> (Set of 10)	<b>Part No. 792020</b>
<b>Rear Wheel Tracking Gauge</b>	<b>Part No. 702210</b>
<b>Body Openings Tram</b>	<b>Part No. 788709</b>
<b>Vertical Surface Attachments</b>	<b>Part No. 799811</b>

## Wireless Wonder

**Intelli-Tape Part No. 787074**

**Intelli-Tape w/Tram Part No. 787071**

Measure body openings, safety cages and point-to-point distances faster, easier and more accurately than ever before with Chief's rugged and innovative Intelli-Tape™ measuring system.

Intelli-Tape measures lengths from 11-inches to 80-inches in either inches or millimeters and can wirelessly transmit this data to your Chief measuring system, populating the correct field in your Genesis® software. Its low-cost and versatility enable Intelli-Tape to pay for itself in a matter of months and is one tool no tech can afford to be without.

### Under Hood

Record and transmit engine compartment measurements including width, length, diagonal, short rail and strut towers

### Windshields & Back Glass

Any point-to-point length, width or diagonal measurements.

### Safety Cage

Record and transmit Body Opening and Passenger Safety Cage dimensions including length, width, diagonal and striker-to-striker measurements

### Trunks & Hatches

Any point-to-point length, width or diagonal measurements.

### Underbody

Measure underbody dimensions including ball joint length, radiator supports, cross-members, engine cradle and short rail. Also great for a quick check for diamond.

- A** Aluminum cable pull-tab slides and retracts cable effortlessly to nearly 2 meters in length
- B** High-impact ABS composite housing for longer product life and unparalleled toughness and durability. Made for use in a busy shop environment
- C** High-intensity backlit LCD display makes reading measurements easy
- D** Soft keypad for comfort with raised task buttons for quick and easy operation
- E** Aluminum zero-point stand-off which zeros-out when pull-tab is returned to its base
- F** Telescoping Lock-Knob holds the Intelli-Tram at exactly the length your measurement requires
- G** Extruded aluminum Intelli-Tram offers the high-tech look and lightweight maneuvering you want with the rugged durability you need
- H** ABS molded saddle tightly secures the Intelli-Tape unit to the Intelli-Tram
- I** Intelli-Tram comes complete with three stand-off points to ensure accurate and reliable measurements every time
- J** Lock-knobs are located at either end of the Intelli-Tram to tightly grip the stand-off pointers, and store neatly in the Intelli-Tram holder which attaches to your measuring system cabinet
- K** Intelli-Tape software is already included in your Chief measuring system. Just plug it in and go!

## Quality Engineered. Bargain Priced.

Intelli-Tape includes all of the high-quality features and durable materials you've come to expect from Chief, but is budget-priced to deliver an incredibly fast ROI while providing consistently accurate and reliable service in shop-tough environments

Product Configuration	
<b>Part # 787074 Intelli-Tape</b> Includes: <ul style="list-style-type: none"> <li>• Intelli-Tape Unit</li> <li>• Saddle-Mount Holder</li> <li>• 2-Meter USB Cable</li> <li>• Transceiver</li> </ul>	<b>Part # 787071 Intelli-Tape w/Tram</b> Includes: <ul style="list-style-type: none"> <li>• Intelli-Tape Unit</li> <li>• Intelli-Tram</li> <li>• 2-Meter USB Cable</li> <li>• Tram Holder Tray</li> <li>• Transceiver</li> </ul>

## Part No. 788003

Compact scanner includes two lasers for more exact measurements and increased accuracy.

Vector displays recommended targets and attachments, all of which are organized within easy reach for convenient, speedy setup.

Highly detailed full-color inspection reports provide documented proof of the extent of damage before repairs . . . and the quality of your work after repairs.

Optional upper body bar allows you to measure the roof, trunk or even two strut towers at once. Plus vertical surface attachment enables comparative vertical measurements on upper body openings, like doors and windows.

Anytime . . . Anywhere

**Part No. 788570**

Get fast, affordable frame and upper body measurements anytime, anywhere with the Vertex® Road Warrior, Chief's powerful, portable and easy-to-use computerized measuring system.

The Vertex Road Warrior is the only measuring system available that combines the speed and accuracy of computerized measuring systems with the ease and simplicity of tram gauges. The result? A durable, lightweight and highly mobile system that opens new revenue-producing opportunities by enabling you to generate detailed, three-dimensional data quickly, easily and on the fly.

Vertex Road Warrior is the most accurate portable computerized measuring system in the world.

Goes wherever you go, providing deadly accurate vehicle data on demand.

Comes complete with everything you need to measure, record and document vehicle dimensions.

Optional lightweight and collapsible table stand provides a sturdy and ergonomically beneficial base for the Road Warrior system.

Measures both upper and lower body points and handles cars, trucks and even the largest SUVs with ease.

Item	Description
Portable/Rollable Composite Travel Case	Made of high-impact composite materials, the Road Warrior travel case is light enough to be carried like a large briefcase or toted behind like an airport carry-on, but tough enough to withstand heavy in-field use Complete 110 volt or 220 volt system
Computer	High-speed CPU Laptop Windows XP Edition Intel Celeron M Processor LCD color monitor 40 gig hard drive 512 MB memory Integrated wireless broadcom 802.11 B/G WLAN DVD player Integrated network capabilities Integrated audio Windows keyboard and touchpad with scroll zone
Software	Chief measuring software can be navigated quickly and easily On-screen photos of attachments and where they should be located One-touch movements X-measurements can be made with a click of the mouse Comparative SAI and caster measurements Easy-to-read color reports to show measurements during and after repairs are made Your company logo can be incorporated into document design Includes interactive help and tutorial The system can be set up to calculate for removed components
Printer	Mobile, high-resolution color printer
Digital Wireless Tram	Wireless tram measures in 3 dimensions. Extends to a maximum length of over 6 feet (1.9 meters)
Attachments	Includes a full array of nylon, side hole and aluminum bolt attachments Magnetic adapter Steel and plastic cones Height and measuring rods Tram hanger attachments
Literature	Users manual, basic training manual, user manual(s) for computer, printer and Microsoft Windows Available on CD

Where Else Can You Get A Team  
Of Full-Time, On-Call Collision  
Repair Experts At Your Disposal?

Part No. 700051

Expert technical assistance and support is just a click away, thanks to E-Access®, the on-line technical support network for Chief computerized measuring systems.

With E-Access, it's like having Chief's technical support team on your payroll . . . without the expense! That's because E-Access links your measuring system directly to Chief's Technical Support Center. Our highly trained and skilled technicians can view your monitor screen, see exactly what you see, and help guide you through the problem.

In fact, E-Access allows our techs to actually take over your measuring system if necessary. They'll quickly and

effectively solve your repair problems, saving tons of time and reducing frustrations while improving the overall quality of every repair you make.

- Enables Chief experts to walk your techs through difficulties and assist in training techs on proper problem-solving and trouble-shooting techniques
- Continuously updated vehicle specs. No more CDs, updates or missing data. Everything is sent to you via high-speed Internet
- Resolve repair issues in a fraction of the time, saving money and improving workflow

## Making Your Shop E-Accessible

E-Access requires that your shop be wired for high-speed Internet service, either wirelessly or via cable. Your shop may already be Internet-ready but, if not, here's what you'll need:

- 1) High-speed Internet service (DSL, cable or T1)
- 2) Wireless connections require an Internet/network connection in the same building and within 50 feet of your measuring system
- 3) For shops with network cabling, make sure there are outlet(s) conveniently located near your Chief measuring system(s)
